

**Air Pollution Control  
Title V Permit to Operate  
Statement of Basis for Permit No. V-SUIT-0051-2014.01  
Minor Permit Revision  
September 26, 2014**

**Samson Resources Company  
Howard Salt Water Disposal Facility  
Southern Ute Indian Reservation  
La Plata County, Colorado**

**Description of Permit Revision**

On June 11, 2014, the Southern Ute Indian Tribe (Tribe) Air Quality Program (AQP) received a minor permit revision request from Samson Resources Company for the Howard Salt Water Disposal Facility requesting to add a backup 405 hp generator engine (engine unit E2). While the permit was open, AQP took the opportunity to revise other conditions in the permit to accurately reflect the applicable regulatory requirements, and to include requirements from the Final Order *In the Matter of Samson Resources Company, United States Environmental Protection Agency Region 8*, Docket Number CAA-08-2013-0015, May 1, 2014, which resulted from alleged violations at Samson Resources Company's Spring Creek Compressor Station.

Specifically, the following revisions have been made to this permit:

**Section I.B. - Source Emission Points**

- Updated the job title held by the source's Responsible Official as requested by a Responsible Official change notification submitted by Samson Resources Company to the Tribe on June 11, 2014.
- Revised Table 1, Emission Units, to include generator engine unit E2.

**Section II – Site Specific Requirements**

- Reformatted Section II. to use the citation system used in current operating permits issued by the Tribe.

**Section II.B - 40 CFR Part 63, Subpart ZZZZ**

- Updated the requirements to accurately reflect the applicable requirements for generator engine unit E2, and added permit Condition c. to the Section II.B. 3 Work, Operation, and Management Practices.

**Section II.C. – Consent Agreement Requirements**

- Added Section II. C. to include Condition III.11. of the Final Order *In the Matter of Samson Resources Company, United States Environmental Protection Agency Region 8*, Docket Number CAA-08-2013-0015, May 1, 2014.

**Section IV. - Part 70 Administrative Requirements.**

- Removed Condition IV.O.5., because requirements already captured in Condition IV.O.1.

AQP is making these revisions as a minor revision in accordance with Reservation Air Code 2-111(3). The permit will be reissued as permit number V-SUIT-0051-2014.01.

For specific applicability information regarding the Part 70 permit for this facility, please see the Statement of Basis for permit number V-SUIT-0051-2014.00.
