

**Air Pollution Control  
Title V Permit to Operate  
Statement of Basis for Permit No. V-SUIT-0036-2014.02  
Administrative Permit Revision  
March 8, 2016**

**Red Cedar Gathering Company  
Pump Canyon Compressor Station  
Southern Ute Indian Reservation  
La Plata County, Colorado**

**Description of Permit Revision**

Alleged violations of 40 CFR Part 63, Subpart HH at the Pump Canyon Compressor Station (Pump Canyon) were disclosed to the AQP on December 14, 2015. Efforts to resolve these violations resulted in a Settlement Agreement between the Southern Ute Indian Tribe's Air Quality Program and Red Cedar Gathering Company.

As required by Settlement Agreement and Stipulated Final Compliance Order (Enforcement Case ID: 2015-01, December 22, 2015), Red Cedar requested a revision to incorporate an approved 40 CFR 63.774(c) Subpart HH plan for demonstrating compliance with the benzene emission limit specified in 40 CFR 63.765(b)(1)(ii) into the operating permit. These revisions are being made under the enhanced monitoring, recordkeeping, and reporting authorities of RAC 2-110(5 through 7) and as an administrative permit revision in accordance with RAC 2-111(2).

Specifically, the following revisions have been made to this permit:

Section II.B.6.c.

- Added Red Cedar's 40 CFR 63.774(c) site specific monitoring and recordkeeping plan.

Section II.B.6.d.

- Removed condition II.B.6.d. as it was not an applicable requirement for this facility.

The permit will be reissued as permit number V-SUIT-0036-2014.02.

For more information on specific regulatory applicability regarding the Part 70 permit for this facility, please reference the Statement of Basis for the initial permit (V-SUIT-0036-2014.00).
