

What to do now that you've been tested

When will I know my results?

Tests are being processed as quickly as possible and results will become available within 1 week.

If you test positive for COVID-19, you will receive a notification. If you test negative for COVID-19, you will not receive a notification.

What should I do while I wait?

While you wait for your test results, continue practicing respiratory disease preventative practices, such as:

1. Avoid close contact with people who are sick.
2. Cover your cough or sneeze with a tissue, then throw your tissue in the trash.
3. Avoid touching your eyes, mouth, and nose.
4. Clean and disinfect highly-touched surfaces.
5. Stay home when you are sick, except to receive medical care.
6. Wash your hands often with soap and water for at least 20 seconds.
